

COMPANY PROFILE

SPP Group is a dynamic, Australian Owned, Quality Assured company incorporated in 1978, operating in the highly competitive field of Building Services, SPP Group's fresh approach to problem solving, together with technical expertise and cost effectiveness, have earned the company an enviable track record as well as that all important vote of Client confidence, repeat business.

With established offices in Adelaide, Brisbane, Melbourne, Sydney, Perth, Mackay, the Gold & Sunshine Coasts, the company is well placed geographically to service Local and National Clients with the ability to offer an equivalent level of service to the industry from each office.

The company for over thirty years has designed documented and supervised projects in Queensland, New South Wales, Victoria and Western Australia

Amongst the countless reasons for our success, innovation is one reason. Textbook solutions to problems are often suited only to textbook projects. We look beyond these constraints for more practical solutions. Technical skill is another reason, which coupled with our experience in the many market sectors, ensures projects are designed with the most appropriate systems in the most cost effective configuration.

And cost effectiveness is another critical consideration not only in design and execution, but also in problem solving, programming and client service in itself. With our progressive

approach we are able to handle all hydraulic consultancy functions, from research and feasibility studies through cost effective design, to commissioning and regulatory responsibilities.

The SPP Group's team have extensive experience in the design documentation and construction of infrastructure and building services for specialist use, incorporating varying methods of procurement.

The SPP Group believe in encouraging staff on all levels to contribute to the effectiveness of the company by nurturing their input and endorsing their interest in further studies, and industry committees. This helps to maintain pride and commitment from employees, which is inevitably transferred to you, our valued Client.

Our teams provide an unequalled level of service on projects of technical difficulty, paying particular attention to our client needs which is the hallmark of SPP Group's approach. We have an unrivalled reputation for creating outstanding Building Services solutions while managing major design projects to tight programmes and budgets.

The SPP Group maintain our status at the various prequalification and approval for Federal, State and Local Government Departments.

Some of the services SPP Group offer from each office include:-

HYDRAULIC ENGINEERING

- Sewer Drainage, Gravitational, Pump and Vacuum Assisted
- Trade Waste Drainage and Trade Waste Treatment Plants
- Specialist Waste Treatment
- Stormwater Drainage
- Sub-Soil Drainage
- Rainwater Downpipes and Gutters
- Sanitary Plumbing
- Trade Waste Plumbing
- Cold Water Supply, Including Storage and Pressurisation
- Hot Water Supply, Including Boilers and Calorifiers
- Waste Heat Recovery
- Natural Gas Service
- Stormwater Drainage Detention Systems
- Domestic Water Treatment Plants and Reticulation
- Water Harvesting
- Bore Pumping
- Sewage Treatment Plants
- Treated Sewage Effluent Spray Irrigation
- Vacuum Drainage Systems
- LP Gas Service
- RO Water Generation and Reticulation Systems
- Treated Water Systems
- Sanitary Ware
- Taps, Outlets and Controls
- Thermostatic Mixing Valve Assemblies
- Landscape Watering and Irrigation Water Supply
- Water Feature Display Fountains
- Swimming Pool Systems
- Steam Service
- Compressed Air Service

FIRE SERVICES

- Fire Hydrant and Fire Hose Reel Systems
- Fire Sprinkler Service
- External Fire Sprinkler Services
- Pre Action Fire Sprinkler Systems for Computer Rooms
- Deluge Fire Suppression Systems
- Fire Alarm Services
- Smoke Detection Services
- Emergency Warning Intercommunication Systems
- Vesda Systems for Computer Rooms
- Fire Extinguishers
- Water Sensing Devices for Computer Rooms Under Floor Space
- Carbon Dioxide Fire Suppression Systems
- Foam Fire Suppression Systems

MARKETING SECTORS

- Aged Care
- Commercial
- Correctional
- Defence
- Education
- Health
- Mining & Industrial
- Recreational & Leisure
- Residential
- Retail

Australian Owned and Operated

MECHANICAL SERVICES

- Air Conditioning
- Heating & Ventilation
- Chilled Water & Boiler Plant
- Co-Generation Systems
- Building Management Systems
- Piped Services, Gas, Oil, Chilled Water, Heating Water
- Specialty Temperature/Humidity/Pressure Control
- Mission Critical Systems
- Special Equipment for Kitchens & Laundries
- Site Distribution Systems
- Refrigeration Plant
- Diesel Engines & Gas Turbines
- Heat Generation & Transmission
- Computer Equipment Systems
- Building Code Consulting
- Life Safety Systems & Smoke Exhaust

ELECTRICAL SERVICES

- Power Generation, Base Load & Standby
- Power Transmission & Distribution (HV & LV)
- Sub Stations
- General Interior Lighting
- Specialty Lighting
- Public Lighting
- Emergency & Evacuation Lighting
- Switchboards
- Power Cabling
- Security Systems
- Uninterruptable Power Supplies (UPS)
- Lighting Protection
- Solar Lighting

COMMUNICATION SERVICES

- Voice & Data Networks
- PABX Telephone Systems
- Radio Systems
- Satellite Services
- Integrated Systems for Intelligent Buildings
- Building Automation Systems
- Audio Visual Facilities
- Fire Detection & Alarm Systems
- Building Emergency Evacuation Systems
- Office Automation Systems
- MATV L & CCTV Applications
- Security & Access Control Systems
- Sound Reinforcement/Electro Acoustics
- Computer Applications

TRANSPORTATION SERVICES

- Elevators
- Escalators
- Moving Trafficways
- Pneumatic Document & Cash Tubes
- Automated Document Handling Systems
- Conveyors
- Baggage Handling Systems
- Telelift Systems

SCOPE OF SERVICES

- Design
- Documentation
- Specification
- Construction quality control
- Bathroom Exhaust Stack
- Hydraulic Feasibility Studies
- Estimating
- Due Diligence
- Professional Witness
